

0-intro

Title

- ☒ 0: Introducing C

Intro.

- ☒ 25% vs. 75%; 10% vs. 90%

git/github

- git/github
- clion project from svn

hello.c

- cmake (just make it working)
- hello world
- comment, preprocessor, function, statement
- `main, printf, string`
- `return 0, int, void`
- cmake (explained line by line)
- clion live template

guess.c

- play with it
- programming with natural language in comments
- input
 - `printf` long string
- data
- operation
- output
- clion code style (google)
- Action on Save (CLion)

git/github (again)

- `cmake.gitignore`
- `jetbrains.gitignore`
- `add, commit, push`
